

MUHAMMAD WASEEM AKHTAR

Senior NetSuite Technical Consultant

+92-321-2134142 waseemisle@gmail.com waseemisle.github.io/portfolio Karachi, Pakistan

PROFESSIONAL SUMMARY

Senior NetSuite Technical & Functional Consultant with 7+ years of experience delivering enterprise ERP implementations, SuiteScript development, NetSuite administration, and large-scale system integrations across manufacturing, retail, wholesale distribution, logistics, healthcare, and eCommerce industries.

Equally experienced on the functional side of the NetSuite implementation lifecycle — leading discovery and requirement-gathering workshops, documenting business requirements (BRD/FRD) and current/future-state process maps, performing fit-gap analysis, and configuring core functional modules including roles & permissions, approval workflows, custom forms, custom records, saved searches, dashboards, and SuiteAnalytics reporting to align system behavior with business policy.

Extensive experience designing, developing, and supporting NetSuite ERP solutions, including custom SuiteScript applications, SuiteFlow automation, SuiteAnalytics reporting, SuiteCloud Development Framework (SDF), RESTlets, Suitelets, User Events, Map/Reduce, Scheduled Scripts, and REST/SOAP API integrations.

Successfully integrated NetSuite with Shopify, WooCommerce, Magento, BigCommerce, Salesforce, HubSpot, Zendesk, Amazon, Walmart, eBay, Wayfair, QuickBooks, SOS Inventory, Royal Mail, DPD, ILG, VOS, and multiple third-party warehouse management systems using Celigo, Dell Boomi, FarApp, REST APIs, GraphQL, Webhooks, SFTP, XML, JSON, and EDI.

Strong functional and technical expertise across Order-to-Cash (O2C), Procure-to-Pay (P2P), Inventory Management, Warehouse Management, Financial Management, CRM, Procurement, Fulfillment, Shipping, and Customer Service processes — including business process design, chart of accounts and workflow configuration, and post-go-live production support.

Experienced in gathering business requirements, designing scalable functional and technical solutions, leading client workshops, coordinating user acceptance testing (UAT), delivering end-user training and change management, managing production support, troubleshooting complex integrations, optimizing ERP performance, and delivering post-go-live support for global clients.
Passionate about building scalable automation solutions and well-governed functional configurations that reduce manual effort, improve operational efficiency, and deliver measurable business value.

EXPERIENCE

NetSuite Administrator

Shureprint

07/2025 - Present Remote

- Serve as the primary functional point of contact for finance and operations stakeholders — gathering business requirements and translating business policy into NetSuite roles, permissions, approval workflows, and custom forms.
- Configure and customize NetSuite using SuiteBuilder, SuiteFlow, Saved Searches, Custom Records, Custom Forms, Roles & Permissions, and SuiteAnalytics to support evolving business requirements.
- Design, implement, and maintain enterprise integrations between NetSuite and BigCommerce using FarApp, enabling automated synchronization of customers, products, inventory, pricing, sales orders, fulfillments, shipments, and refunds.
- Develop and maintain accounting integrations between NetSuite and QuickBooks for invoice synchronization, payment reconciliation, and financial reporting.
- Configure NetSuite integration with SOS Inventory, automating synchronization of inventory, purchase orders, sales orders, customers, vendors, and invoices.
- Support period-end financial operations by validating synced transactions, reconciling discrepancies, and ensuring financial reporting accuracy across integrated systems.
- Develop and maintain GroundOps, a modern SaaS application using Next.js, GraphQL, Firebase, Supabase, Tailwind CSS, and Stripe.
- Design secure authentication, role-based access control, notification services, and scalable APIs supporting real-time business operations.
- Technologies: Oracle NetSuite, SuiteFlow, SuiteBuilder, SuiteAnalytics, FarApp, BigCommerce, QuickBooks, SOS Inventory, Next.js, Firebase, Supabase, GraphQL, Stripe, JavaScript

KEY ACHIEVEMENTS

Enterprise NetSuite Integration Delivery

Successfully delivered 20+ enterprise NetSuite implementation and integration projects — spanning functional configuration, business process design, and technical delivery — connecting ERP with leading eCommerce, CRM, marketplace, accounting, POS, and 3PL platforms including Shopify, BigCommerce, WooCommerce, Magento, Salesforce, HubSpot, Zendesk, Amazon, eBay, Walmart, Wayfair, QuickBooks, SOS Inventory, Royal Mail, DPD, ILG, and VOS.
Designed scalable integration solutions using Celigo, Dell Boomi, FarApp, REST APIs, SOAP APIs, GraphQL, SuiteTalk, RESTlets, Webhooks, JSON, XML, and SFTP.

NetSuite Functional Consulting & Business Process Design

Requirements Gathering & Discovery Workshops · Business Process Mapping · Fit-Gap Analysis · BRD/FRD Documentation · Order-to-Cash (O2C) Process Design · Procure-to-Pay (P2P) Process Design · Inventory & Warehouse Management Configuration · Roles, Permissions & Segregation-of-Duties Design · Approval Workflow Design · Custom Forms, Records & Fields Configuration · Financial Reporting & Reconciliation · Saved Searches, KPIs & Dashboards · SuiteAnalytics Workbooks · Chart of Accounts Support · UAT Coordination & Test Script Design · End-User Training & Change Management · Functional Documentation & Knowledge Transfer · Data Migration & Cutover Support · Production Support & Post-Go-Live Hypercare · Client Relations & Stakeholder Management

Post-Go-Live Support & Client Satisfaction

Provided Level 2 and Level 3 production support for multiple enterprise NetSuite implementations, covering both functional configuration issues and technical defects.
Diagnosed and resolved complex issues involving SuiteScript, SuiteFlow, integrations, financial transactions, inventory synchronization, and order processing with minimal business disruption.
Successfully supported multiple post-go-live deployments, ensuring long-term customer satisfaction.

Reporting & Business Intelligence

Developed complex Saved Searches, SuiteAnalytics Workbooks, KPIs, Dashboards, and Advanced PDF/HTML Templates to provide actionable operational and financial insights to business stakeholders and leadership.

EXPERIENCE

Senior NetSuite Product Engineer

Folio3 Pvt Ltd

01/2021 - 09/2025 Karachi, Pakistan

- Designed and developed enterprise-grade NetSuite integrations for Shopify, WooCommerce, Magento, BigCommerce, Salesforce, HubSpot, Zendesk, Amazon, Walmart, eBay, Wayfair, Joor, and multiple third-party platforms.
- Built scalable SuiteScript 2.x solutions including User Events, Client Scripts, Scheduled Scripts, RESTlets, Suitelets, and Map/Reduce scripts.
- Designed REST API integrations between NetSuite and external ERP, CRM, POS, warehouse, logistics, and accounting systems.
- Developed reusable integration frameworks that reduced implementation effort across multiple customer environments.
- Implemented business automation using SuiteFlow, custom records, workflows, and approvals, and configured SuiteAnalytics reporting to support functional business requirements.
- Built production-ready integrations using Dell Boomi, REST APIs, XML, JSON, GraphQL, and Webhooks.
- Collaborated directly with clients to gather business requirements, lead fit-gap analysis, prepare functional and technical design documents, conduct solution demonstrations, and deliver production deployments.
- Resolved complex production issues involving SuiteScript governance, integration failures, inventory synchronization, fulfillment processing, tax calculations, and financial transactions.
- Delivered technical and functional documentation, deployment guides, end-user training, knowledge transfer sessions, and post-go-live support.
- Technologies:** Oracle NetSuite, SuiteScript 1.0/2.x, SuiteFlow, SuiteTalk, REST APIs, GraphQL, Celigo, Dell Boomi, Shopify, Magento, WooCommerce, BigCommerce, Salesforce, Amazon, eBay, JavaScript

NetSuite Consultant

Amyris, Inc

01/2022 - 03/2023 Remote

- Provided functional and technical consulting and customization services for Oracle NetSuite ERP, supporting business operations across finance, inventory, procurement, and order management.
- Gathered business requirements from finance and operations stakeholders and configured NetSuite workflows, custom forms, custom fields, saved searches, dashboards, and SuiteAnalytics reports to meet business needs.
- Supported enterprise integrations between NetSuite, Shopify, Dell Boomi, and third-party logistics providers.
- Investigated and resolved production issues related to NetSuite customizations, integrations, transaction processing, and workflow automation.
- Delivered post-go-live support, issue resolution, end-user assistance, functional training, and continuous system improvements.
- Technologies:** Oracle NetSuite, SuiteScript, SuiteAnalytics, Saved Searches, Shopify, Dell Boomi, REST APIs

Software Engineer

Tecbz

03/2019 - 11/2020 Karachi, Pakistan

- Developed and optimized web applications using JavaScript, React, Redux, and Express.
- Collaborated with the marketing team to enhance SEO strategies and optimize content for better web traffic.
- Worked on dynamic, component-based user interfaces using Styled Components (CSS-in-JS).
